

## **Swing Studio**

“Poorly fitted golf equipment leads to bad swing habits as you adjust to compensate for your equipment”

Can you afford to play the wrong equipment this year?  
Can you leave it another season before you come for that lesson?

For 2010 we are pleased to announce the introduction of a brand new teaching and Club facility at Helensburgh Golf Club. Fraser has renovated a small section of the disused greenkeeper shed and built a state of the art Swing Studio for members & visitors to receive Lessons and Custom Fitting no matter what the weather!

By utilising the latest launch monitor technology and state of the art video equipment the team are able to provide all customers with an unrivalled level of product knowledge and service to fix and fit any level of player from Professional to Newcomer.

Fraser offers a variety of different fittings dependant on what area you wish to improve and the team are more than happy to explain the different options and advantages to your game this could have.

Original clubs can also be checked and altered to insure your equipment is helping you to lower those handicaps!

Fraser is an Official Taylor Made and Ping Fitting Centre and can customise a set to meet the demands of your game no matter what standard of player the benefits are unbelievable. This service is open to any member or non-member and the team are more than happy to answer any queries you may have on your equipment and the benefits of being custom fitted.

Video Coaching is incredible in the Swing Studio – using the latest Slow Motion technology with GASP & C Swing software we are not only able to look at your action and identify causes for poor shots we can look at your progress or even compare you to the best players in the world – side by side on the same screen !!
