

CASC Membership

As a CASC organisation we offer membership to people on low or modest incomes under our CASC membership category. The Directors/ Management Committee have the power to offer Ordinary Membership at a reduced rate so that the cost associated with membership does not exceed £520 per annum, or such other amount as amended from time to time by CASC regulations, to those who apply and can demonstrate to the Directors that they are on low or modest incomes. Any member accepted on this basis is also eligible to borrow, at no charge, equipment from the Club which would enable them to participate in the game of Golf and would not be subject to the Loyalty Card Levy. Evidence that the membership applicant cannot clearly afford the full membership subscription will require to be submitted to support the application. CASC Ordinary Members have the same playing rights and voting rights as all other ordinary members.
